INDEX OF SUBJECTS

Advances in Legume Science, ed. by R. J. Summerfield and A. H. Bunting, reviewed by N. W. Simmonds, 112

Agricultural Research (Crop and Soil Sciences) 1974–1978, ed. by L. C. Hughes, reviewed by J. P. Hudson, 432

Agriculture in Semi-arid Environments, ed. by A. E. Hall, G. H. Cannell and H. W. Lawton, reviewed by K. R. M. Anthony, 112

Agriculture in the Tropics, by C. C. Webster and P. N. Wilson, reviewed by K. R. M. Anthony, 222

Amazon cocoa in Nigeria, boron nutrition. I. Early results of fertilizer trials (Ojeniyi, Egbe and Omotosho), 399

Applied Soil Physics, by R. J. Hanks and G. L. Ashcroft, reviewed by M. McGowan, 431

Arachis hypogaea, see Groundnut

Arid areas, use of saline groundwater (Hallsworth), 145

Atrazine, effects on relations between *Sorghum bicolor* and *Striga hermonthica* (Bebawi and Farah), 425

Azospirillum, yield increases in cereal crops inoculated with (Kapulnik, Sarig, Nur, Okon, Kigel and Henis), 179

Banjhi cycle in tea (Tanton), 149

Boron nutrition of Amazon cocoa in Nigeria. I. Early results of fertilizer trials (Ojeniyi, Egbe and Omotosho), 399

Brassica juncea, see Mustard

Cacao theobroma, see Amazon cocoa

Cajanus cajan, see Pigeonpea

Camellia sinensis, see Tea

Carthamus tinctorius, see Safflower

Cassava, effects of harvesting frequency on leaf and root yields (Dahniya, Oputa and Hahn), 91

Cassava in tropical oligotrophic peat, influence of liming and soil pH (Chew, Joseph, Ramli and Majid), 171

Cereal crops, inoculated with Azospirillum, yield increases (Kapulnik, Sarig, Nur, Okon, Kigel and Henis), 179

Chickpea, in experiment illustrating examination of effects of plant population and spatial arrangement on intercropping (Willey and Rao), 63

Cicer arietinum, see Chickpea

Climbing beans and maize, border effects and optimum plot sizes (Davis, Amézquita and Muñoz), 127

Cocoyam, flower promotion by application of gibberellic acid (Wilson), 317

Colocasia esculenta, see Cocoyam

Cotton, April-sown, heat-induced sterility (Taha, Malik, Chaudhry and Makhdum), 189

Cowpea in Sierra Leone, effects of planting date and mulching on (Kamara), 25

Cowpeas, intercropping with maize (Wahua, Babalola and Aken'ova), 407

Crop physiology, physical measurements. I. Growth and gas exchange (Monteith, Gregory, Marshall, Ong, Saffell and Squire), 113; II. Water relations (Squire, Black and Gregory), 225

Dormancy in tea (Tanton), 149

Eating Oil – Energy Use in Food Production, by M. B. Green, reviewed by J. R. O'Callaghan, 219

Environment, genotype and *GE* components of crop yields (Simmonds), 355

Field experiments, block size and orientation, and allowance for positional effects in (Warren and Mendez), 17

Field plans: why the biometrician finds them useful (Ryder), 243

Flooding and soil moisture content, influence on elongation of sugarcane in Trinidad (Gumbs and Simpson), 403

Forage production in northern Mexico. I. Responses of Italian ryegrass to nitrogen and irrigation (Thomas and Farias), 291

Foxtail millet, nitrogen application for short-term forages (Bartholomew and Williams), 281

Fungus Disease of Tropical Crops, by P. Holliday, reviewed by R. L. Wastie, 343

Gas exchange, measurements in crop physiology (Monteith, Gregory, Marshall, Ong, Saffell and Squire), 113

Genotype, environment and *GE* components of crop yields (Simmonds), 355

Gibberellic acid, effects of formulation and method of applying on flower promotion in cocoyam (Wilson), 317
Groundnut, in acid peat, influence of liming and soil pH (Chew, Joseph and Ramli), 163
Growth, measurements in crop physiology (Monteith, Gregory, Marshall, Ong, Saffell and Squire), 113
Gypsum and zinc, effects on rice nutrition on sodic soil (Takkar and Nayyar), 49

Handbook of Legumes of World Economic Importance, ed. by James A. Duke, reviewed by N. W. Simmonds, 431
Harvesting frequency, effects on leaf and root yields of cassava (Dahniya, Oputa and Hahn), 91
Hevea brasiliensis, see Hevea rubber
Hevea rubber trees, early exploitation by puncture and short-cut tappings (Waidyanatha and Angammana), 303

Interactive approach to analysing rainfall records for agricultural purposes (Hills and Morgan), 1
Intercropping, effects of plant population and spatial arrangement (Willey and Rao), 63
Intercropping, field technique for separating above- and below-ground interactions: an experiment with pearl millet/groundnut (Willey and Reddy), 257
Inter-row spacing, effects on maize yields and herbicidal weed control in irrigated savanna (Choudhary), 389
An Introduction to Seed Technology, by J. R. Thomson, reviewed by D. Juckes, 221
Irrigation of wheat, criteria for scheduling (Misra and Pant), 157
Irrigation schedules, effects on yield of mustard (Prihar, Sandhu, Khera and Sandhu), 105
Italian ryegrass, nitrogen application for short-term forages (Bartholomew and Williams), 271
Italian ryegrass, responses to nitrogen and irrigation (Thomas and Farias), 291

Leaf juice extraction, improved small scale unit (Butler and Pirie), 39
Leaf water potential, comparison of techniques for measuring (Yegappan and Mainstone), 75
Lens culinaris, see Lentils
Lentils, controlled environments as an adjunct to field research. I. Perspectives, tenets and objectives (Summerfield and Muehlbauer), 363
Liming and soil pH, influence on cassava in tropical oligotrophic peat (Chew, Joseph, Ramli and Majid), 171
Liming and soil pH, influence on sorghum and groundnut in acid tropical Malaysian peat (Chew, Joseph and Ramli), 163
Linking Research to Crop Production, ed. by R. C. Staples and R. J. Kuhr, reviewed by N. W. Simmonds, 112
Lolium multiflorum, see Italian ryegrass

Maize and climbing beans, border effects and optimum plot sizes (Davis, Amézquita and Muñoz), 127
Maize, conserving fertilizer nitrogen by intercropping pigeonpea (Yadav), 311
Maize, growth, development and grain yield (Hawkins and Cooper), 203
Maize, intercropping with cowpeas: LER and growth attributes of associated cowpeas (Wahua, Babalola and Aken'ova), 407
Maize in Nigeria, as example of social-scientist's role in generating innovations for small farmers (Bartlett and Fajemisin), 373
Maize, nitrogen application for short-term forages (Bartholomew and Williams), 281
Maize, variability for seedling vigour in (Fakorede and Ojo), 195
Maize, water relations, effects of planting patterns and population (Babalola and Oputa), 97
Maize in western Kenya, effects of ground rock phosphate and elemental S on yield and P uptake (Bromfield, Hancock and Debenham), 383
Maize yields, effects of population and inter-row spacing (Choudhary), 389
Manihot esculenta, see Cassava
Mathematicians, statisticians and computers, misuse in agricultural research (Finney), 345
Mesquite, variation in growth (Felker, Cannell and Clark), 209
Mustard, effects of irrigation schedules on yield (Prihar, Sandhu, Khera and Sandhu), 105

Neutron meter access tubes, technique for using in cultivated soils, 265

New Agricultural Crops, ed. by Gary A. Ritchie, reviewed by N. W. Simmonds, 342
Nitrogen, conserving by intercropping pigeonpea in maize (Yadav), 311
Nitrogen economy and productivity of cereals, effects of winter legumes on (Ahlawat, Singh and Saraf), 57
Nitrogen for short-term forages in Saudi Arabia. I. Winter annuals (Bartholomew and Williams), 271; II. Summer annuals (Bartholomew and Williams), 281
Nitrophoska, effects on relations between *Sorghum bicolor* and *Striga hermonthica* (Bebawi and Farah), 425

Oats, nitrogen application for short-term forages (Bartholomew and Williams), 271

P uptake of maize, effects of ground rock phosphate and elemental S (Bromfield, Hancock and Debenham), 383
Panicum miliaceum, *see* Proso millet
Partition, and dry matter production, in relation to yield of tea (Magambo and Cannell), 33
Patterns and methods of sowing, effects on sorghum/striga relation (Bebawi and Farah), 337
Pearl millet/groundnut, experimental field technique for separating above- and below-ground interactions in intercropping (Willey and Reddy), 257
Peat, acid tropical Malaysian, influence of liming and soil pH on sorghum and groundnut in (Chew, Joseph and Ramli), 163
Pest Control: Cultural and Environmental Aspects, ed. by D. Pimentel and J. H. Perkins, reviewed by H. F. van Emden, 219
Phaseolus vulgaris, *see* Climbing beans
Phosphate, and yield and P uptake of maize (Bromfield, Hancock and Debenham), 383
Pigeonpea, intercropping to conserve fertilizer nitrogen in maize and produce residual effects on sugarcane (Yadav), 311
Plant population and spatial arrangement in intercropping examined, illustrated by an experiment on chickpea/safflower (Willey and Rao), 63
Planting date and mulching, effects of on cowpea in Sierra Leone (Kamara), 25
Planting patterns and population, effects on water relations of maize (Babalola and Oputa), 97
Population and inter-row spacing, effects on maize yields and herbicidal weed control in irrigated savanna (Choudhary), 389
Positional effects, allowance for in field experiments (Warren and Mendez), 17
Press, for measuring leaf water potential, compared with pressure chamber (Yegappan and Mainstone), 75
Pressure chamber, for measuring leaf water potential, compared with pressure chamber (Yegappan and Mainstone), 75
Proso millet, nitrogen application for short-term forages (Bartholomew and Williams), 281
Prosopis species, variation in growth (Felker, Cannell and Clark), 209

Rainfall records, an interactive approach to analysing, for agricultural purposes (Hills and Morgan), 1
Rice nutrition on sodic soil, effects of gypsum and zinc (Takkar and Nayyar), 49
Rice in the Tropics. A Guide to the Development of National Programmes, by Robert F. Chandler, Jr, reviewed by R. W. Smith, 221
Row spacing, effects on sugarcane (Abubaker and Gurnah), 85

S, elemental, and yield and P uptake of maize (Bromfield, Hancock and Debenham), 383
Saccharum officinarum, *see* Sugarcane
Safflfower, in experiment illustrating examination of effects of plant population and spatial arrangement on intercropping (Willey and Rao), 63
Saline groundwater, use of in arid areas (Hallsworth), 145
Seed Production, ed. by P. D. Hebblethwaite, reviewed by D. Juckes, 221
Setaria italica, *see* Foxtail millet
Sierra Leone, effects of planting date and mulching on cowpea in (Kamara), 25
Small Farm Development: Understanding and Improving Farming Systems in the Humid Tropics, by R. R. Harwood, reviewed by G. Gwyer, 220
Small Scale Processing and Storage of Tropical Root Crops, ed. by D. L. Plucknett, reviewed by D. G. Coursey, 223

Sodic soil, effects of gypsum and zinc on rice nutrition on (Takkar and Nayyar), 49
Soil moisture content, influence on elongation of sugarcane in Trinidad (Gumbs and Simpson), 403
Soil pH, influence on sorghum and groundnut in acid tropical Malaysian peat (Chew, Joseph and Ramli), 163
Sorghum, effects of parasitic and non-parasitic weeds (Bebawi and Farah), 415
Sorghum, in acid peat, influence of liming and soil pH (Chew, Joseph and Ramli), 163
Sorghum bicolor, relations with *Striga hermonthica*, effects of nitrophoska and atrazine (Bebawi and Farah), 425
Sorghum bicolor, see Sorghum
Sowing patterns and methods, effects on sorghum/striga relations (Bebawi and Farah), 337
Sterility, heat induced, in April-sown cotton (Taha, Malik, Chaudhry and Makhdum), 189
Striga hermonthica, intraspecific physiological variants (Bebawi), 419
Striga hermonthica, relations with *Sorghum bicolor*, effects of nitrophoska and atrazine on (Bebawi and Farah), 425
Successful Seed Programs: A Planning and Management Guide, by J. E. Douglas, reviewed by J. R. Thomson, 220
Sugarcane, influence of flooding and soil moisture content on elongation (Gumbs and Simpson), 403
Sugarcane, Kenya coast, effects of weeding and row spacing (Abubaker and Gurnah), 85
Sugarcane, residual effects produced by intercropping pigeonpea (Yadav), 311
Sugarcane varieties, comparisons of performance in trials and in agriculture (Walker and Simmonds), 137

Tea, banjhi (dormancy) cycle (Tanton), 149
Tea bush, growth and yield (Tanton), 323
Tea, dry matter production and partition in relation to (Magambo and Cannell), 33
Tomatoes in the Tropics, by R. L. Villareal, reviewed by A. R. Rees, 342
Trials, performance of sugarcane varieties in, compared with agriculture (Walker and Simmonds), 137
Tropical Fruits, by J. A. Samson, reviewed by A. F. Posnette, 342
Tropical Soils and Soil Survey, by Anthony Young, reviewed by A. J. Smyth, 343

Urea spray, effects on wheat (Seth and Mosluh), 333

Variability for seedling vigour in maize (Fakorede and Ojo), 195
Vigna unguiculata, see Cowpea

Water relations of maize, effects of planting patterns and population (Babalola and Oputa), 97
Weeding, effects on sugarcane (Abubaker and Gurnah), 85
Weeds, parasitic and non-parasitic, effects on sorghum (Bebawi and Farah), 415
Wheat, criteria for scheduling irrigation (Misra and Pant), 157
Wheat, effects of urea spray (Seth and Mosluh), 333
Wheat, nitrogen application for short-term forages (Bartholomew and Williams), 271
Wheat Science – Today and Tomorrow, ed. by L. T. Evans and W. J. Peacock, reviewed by N. W. Simmonds, 431
Winter legumes, and nitrogen economy and productivity of succeeding cereals (Ahlawat, Singh and Saraf), 57
World Soya Bean Research Conference II, ed. by Frederick T. Corbin, reviewed by W. Williams, 222

Xanthosoma sagittifolium, see Cocoyam

Yield increases, in cereal crops inoculated with Azospirillum (Kapulnik, Sarig, Nur, Okon, Kigel and Henis), 179

Zea mays, see Maize
Zinc, and gypsum, effects on rice nutrition on sodic soil (Takkar and Nayyar), 49

INDEX OF AUTHORS

Abubaker, A. S. and Gurnah, A. M. Effects of weeding and row spacing on sugarcane at the Kenya coast, 85

Ahlawat, I. P. S., Singh, A. and Saraf, C. S. Effects of winter legumes on the nitrogen economy and productivity of succeeding cereals, 57

Aken'ova, M. E., *see* Wahua, T. A. T.

Amézquita, M. C., *see* Davis, J. H. C.

Angammana, D. K., *see* Waidyanatha, U. P. de S.

Anthony, K. R. M. Review of *Agriculture in Semi-arid Environments*, ed. by A. E. Hall, G. H. Cannell and H. W. Lawton, 112

Anthony, K. R. M. Review of *Agriculture in the Tropics*, by C. C. Webster and P. N. Wilson, 222
